

32-3140: YWHAQ Recombinant Protein

Alternative Name : 14-3-3 theta,14-3-3 tau,14-3-3 T-cell,HS1,YWHAQ,1C5,14-3-3 Tau,Tyr-3/Trp- 5 Monooxygenase Activation Protein Theta.

Description

Source : Escherichia Coli. YWHAQ Human Recombinant produced in E.Coli is a single, non-glycosylated, polypeptide chain containing 245 amino acids (1-245) and having a molecular mass of 27 kDa. YWHAQ is purified by proprietary chromatographic techniques. The 14-3-3 family of proteins plays a key regulatory role in signal transduction, checkpoint control, apoptotic and nutrient-sensing pathways. 14-3-3 proteins are highly conserved and ubiquitously expressed. There are at least seven isoforms and that have been identified in mammals. The 14-3-3 tau, a subtype of the 14-3-3 family of proteins, was found in T Cells, brain and testes. This 14-3-3 tau is upregulated in patients with amyotrophic lateral sclerosis.

Product Info

Amount : 20 µg

Purification : Greater than 95.0% as determined by(a) Analysis by RP-HPLC.(b) Analysis by SDS-PAGE.

Content : YWHAQ solution containing 20mM Tris 7.5.

Storage condition : YWHAQ Human Recombinant although stable at 4°C for 1 week, should be stored desiccated below -18°C. Please prevent freeze thaw cycles.

Amino Acid : MEKTELIQKA KLAEQAERYD DMATCMKAVT EQGAELSNEE RNLLSVAYKN VVGGRRSAWRVISSIEQKTD
