32-5131: Recombinant Human Cardiac Troponin I-C Complex

Alternative Name:

Troponin I cardiac muscle, Cardiac troponin

I,TNNI3,TNNC1,CMH7,RCM1,cTnI,CMD2A,MGC116817,Troponin C slow skeletal and cardiac muscles,TN-

C,TNNC1,TNNC,TNC,CMD1Z.

Description

Source: Escherichia Coli. Troponin Complex is a heteromeric protein playing an important role in the regulation of skeletal and cardiac muscle contraction. It consists of three subunits, Troponin I, Troponin T and TroponinC. Each subunit is responsible for part of Troponin Complex function. E.g. Troponin I inhibits ATP-ase activity of acto-myosin. Troponin T and Troponin lare presented in cardiac muscles in different forms than in skeletal muscles. Purified subunits of rcTnI, rcTnC and rcTnT are recomplexed in vitro under appropriate conditions.

Product Info

Amount: 10 μg

Purification: Greater than 90.0% as determined by:(a) Analysis by RP-HPLC.(b) Analysis by SDS-PAGE.

Content: Each mg/ml of protein (0.5mg/ml) contains 50% glycerol.

Storage condition:

Storage condition:

Store at 4°C if entire vial will be used within 2-4 weeks. Store, frozen at -20°C for longer periods of time. Avoid multiple frozen thank exclass.

of time. Avoid multiple freeze-thaw cycles.
