11-3024: Polyclonal Antibody to NALP3

Clonality: Polyclonal

Application: WB
Reactivity: Human
Gene: NLRP3
Gene ID: 114548
Uniprot ID: Q96P20
Format: Purified

Alternative Name: NLRP3,C1orf7,CIAS1,NALP3,PYPAF1

Isotype: Rabbit IgG

Immunogen Information: A partial recombinant NALP3 protein (amino acids 1-200) was used as the immunogen for this

antibody.

Description

NALP3 (NACHT, LRR and PYD domains-containing protein 3), otherwise known as cryopyrin, is a member of the NLR (Nod-like-receptors) family. This is a pyrin-like protein, having N-terminal CARD or pyrin domains needed for homotypic protein-protein interaction, an intermediate nucleotide binding self-oligomerization NACHT domain and a C-terminal domain containing leucine-rich repeats (LRRs). NALP3 is a key component of innate immunity and its expression is restricted to immune cells and chondrocytes. It interacts with the apoptosis-associated speck-like protein PYCARD/ASC, which contains a caspase recruitment domain, and is a member of the NALP3 inflammasome complex. This complex functions as an upstream activator of NF-kappa signaling, and it plays an important role in the regulation of inflammation, the immune response, and apoptosis.

Product Info

Amount : 25 μg / 100 μg

Purification: Protein A Chromatography

Content: 25 µg in 50 µl/100 µg in 200 µl PBS containing 0.05% BSA and 0.05% sodium azide. Sodium

azide is highly toxic.

Storage condition : Store the antibody at 4°C, stable for 6 months. For long-term storage, store at -20°C. Avoid

repeated freeze and thaw cycles.

Application Note

Western blot analysis: 2-4 µg/ml
