35-1798: Polyclonal Antibody to Doublecortin

Clonality: Polyclonal

Application: WB

Reactivity: Rat, Mouse, Human

Gene : DCX
Gene ID : 1641
Uniprot ID : 043602
Format : Purified

Alternative Name : DCX, DC, DBCN Isotype : Rabbit IgG

Immunogen Information: Peptide sequence around aa.413~417(P-T-S-P-G) derived from Human Doublecortin.

Description

Seems to be required for initial steps of neuronal dispersion and cortex lamination during cerebral cortex development. May act by competing with the putative neuronal protein kinase DCAMKL1 in binding to a target protein. May in that way participate in a signaling pathway that is crucial for neuronal interaction before and during migration, possibly as part of a calcium ion-dependent signal transduction pathway. May be part with LIS-1 of an overlapping, but distinct, signaling pathways that promote neuronal migration.

Product Info

Amount : 50 μl / 100 μl

Content: Supplied at 1.0mg/mL in phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4, 150mM

NaCl, 0.02% sodium azide and 50% glycerol.

Storage condition : Store the antibody at 4°C, stable for 6 months. For long-term storage, store at -20°C. Avoid

repeated freeze and thaw cycles.

Application Note

Predicted MW: 40-45kd, Western blotting: 1:500~1:1000
