## 35-1858: Polyclonal Antibody to HIF2A

Clonality: Polyclonal

Application: WB
Reactivity: Human
Gene: EPAS1
Gene ID: 2034
Uniprot ID: Q99814
Format: Purified

Alternative Name: HLF, MOP2, ECYT4, HIF2A, PASD2

**Isotype:** Rabbit IgG

Immunogen Information: Peptide sequence around aa.547-551(P-E-E-R-L) derived from HumanHIF2A.

## **Description**

Transcription factor involved in the induction of oxygen regulated genes. Binds to core DNA sequence 5'-[AG]CGTG-3' within the hypoxia response element (HRE) of target gene promoters. Regulates the vascular endothelial growth factor (VEGF) expression and seems to be implicated in the development of blood vessels and the tubular system of lung. May also play a role in the formation of the endothelium that gives rise to the blood brain barrier. Potent activator of the Tie-2 tyrosine kinase expression. Activation seems to require recruitment of transcriptional coactivators such as CREBPB and probably EP300. Interaction with redox regulatory protein APEX seems to activate CTAD.

## **Product Info**

Amount :  $50 \mu l / 100 \mu l$ 

Content: Supplied at 1.0mg/mL in phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4, 150mM

NaCl, 0.02% sodium azide and 50% glycerol.

**Storage condition :** Store the antibody at 4°C, stable for 6 months. For long-term storage, store at -20°C. Avoid

repeated freeze and thaw cycles.

## **Application Note**

Western blotting: 1:500~1:1000
