## 39-1017: Anti-CDC25C Monoclonal Antibody (Clone: DCS-193)

Clonality: Monoclonal **Clone Name:** DCS-193 Application: WB Reactivity: Human Gene: Cdc25c Gene ID: 307511 **Uniprot ID:** D4ADT2

**Alternative Name:** Protein Cdc25c; Cdc25c

Isotype: Mouse IgG1

Immunogen Information: Recombinant human Cdc25c.

## **Description**

Cell division cycle(CDC25) gene product is a protein-tyrosine phosphatase, activates a partially purified p34(cdc2)/cyclin B complex. The cdc25 protein also shares homology with a protein phosphatase with activity against both tyrosine and serine(and thus probably threonine) phosphate residues. CDC25C is expressed predominantly in G2 phase in healer cells. The human gene encodes a protein with a predicted molecular mass of 53,000 daltons whose C-terminal domain shares about 37% sequence identity with the fission yeast cdc25 mitotic inducer. CDC25C gene is mapped to 5g31.

## **Product Info**

Amount: 100 μg/vial **Purification: Ascites** 

Mouse ascites fluid, 1.2% sodium acetate, 2mg BSA, with 0.01mg NaN3 as preservative. Content:

Reconstitute: Add 1ml of PBS buffer will yield a concentration of 100ug/ml.

At -20°C for one year. After reconstitution, at 4°C for one month. It can also be aliquotted and **Storage condition:** 

stored frozen at -20°C for a longer time. Avoid repeated freezing and thawing.

## **Application Note**

Western blot : 1-2̸¼g/ml
