## 32-8233: Recombinant Human Signal Transducer and Activator of Transcription 6/STAT6 (C-6His)

## Gene : STAT6

Gene ID: 6778
Uniprot ID: P42226

## Description

Source: E. coli.
MW : 23.9 kD .
Recombinant Human STAT6 is produced by our E.coli expression system and the target gene encoding Ser627-Ser837 is expressed with a 6His tag at the C-terminus. Signal Transducer and Activator of Transcription 6 (STAT6) is a member of the STAT family of transcription factors. At least seven STATs exist: STAT1, $2,3,4,5 a, 5 b$, and 6 . They are responsible for an array of cellular activities including regulating growth, survival, differentiation, motility, and the immune response. STAT6 plays a central role in exerting IL4 mediated biological responses. It is found to induce the expression of BCL2L1/BCL-X(L), which is responsible for the anti-apoptotic activity of IL4. Knockout studies in mice suggested the roles of this gene in differentiation of $T$ helper 2 (Th2) cells, expression of cell surface markers, and class switch of immunoglobulins. STAT6 has been shown to interact with EP300, CREB-binding protein, NFKB1, Nuclear receptor coactivator 1, IRF4 and SND1.

## Product Info

## Amount :

$10 \mu \mathrm{~g} / 50 \mu \mathrm{~g}$

## Content :

Storage condition :
Lyophilized from a $0.2 \mu \mathrm{~m}$ filtered solution of $20 \mathrm{mM} \mathrm{PB} 150 \mathrm{mM} \mathrm{NaCl},, \mathrm{pH} 7.4$.
Lyophilized protein should be stored at $-20^{\circ} \mathrm{C}$, though stable at room temperature for 3 weeks. Reconstituted protein solution can be stored at $4-7^{\circ} \mathrm{C}$ for 2-7 days. Aliquots of reconstituted samples are stable at $-20^{\circ} \mathrm{C}$ for 3 months.
Amino Acid : MSHYKPEQMGKDGRGYVPATIKMTVERDQPLPTPELQMPTMVPSYDLGMAPDSSMSMQLGPDMVPQVYPPH SHSIPPYQGLSPEESVNVLSAFQEPHLQMPPSLGQMSLPFDQPHPQGLLPCQPQEHAVSSPDPLLCSDVTMVE DSCLSQPVTAFPQGTWIGEDIFPPLLPPTEQDLTKLLLEGQGESGGGSLGAQPLLQPSHYGQSGISMSLEHHHH HH

## Application Note

Endotoxin : Less than 0.1 ng/Ã $\square \hat{A ̂ \mu g ~(1 ~ I E U / A ̃ ~} \square \hat{A} \mu \mathrm{~g})$ as determined by LAL test.
