14-1018: Human Peripheral Blood Mononuclear Cells(Discontinued)

**Description** 

Mononuclear cells (MNCs) are separated from peripheral blood by either a density gradient centrifugation

protocol or by apheresis. The mononuclear cells are composed of lymphocytes (T cells, B cells, and NK

cells), monocytes, dendritic cells, and stem/progenitor cells. These cells are critical components of the

immune system and play key roles in the humoral and cell-mediated immune responses. Mononuclear cells

are commonly used in research and clinical applications in the areas of immunology, infectious disease,

hematological malignancies, vaccine development, transplant therapy, and high-throughput screening.

We offers highly pure and viable mononuclear cells from peripheral blood in an assortment of pre-selected

volumes and formats (cryopreserved or fresh). This highly pure population of cells makes them ideal for

further isolations of specific cell types within the mononuclear fraction.

Cells were obtained using Institutional Review Board (IRB) approved consent forms and protocols.

**Product Info** 

Amount: 1 Vial

**Content:** Each cryopreserved vial contains 15 million cells. Preserved in CryoStorâ, ¢ CS10 (10% DMSO)

**Storage condition :** Immediately upon receipt, store in liquid nitrogen.

**Application Note** 

LIMITED USE RESTRICTIONS:

THIS PRODUCT IS SOLELY FOR IN VITRO RESEARCH USE ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.

By use of this product, user agrees to be bound by the terms of this limited use statement.

This product is <u>solely for Internal Research Purposes</u> and <u>not for Commercial Purposes</u>. Commercial Purposes include, but are not limited to (1) use of the cell line in manufacturing; (2) use of the cell line to provide a service, information or data; (3) use of the cell line for therapeutic, diagnostic or prophylactic purposes; or (4) resale of the cell line whether or not such cell lines are resold for use in research.

Commercial License Agreement is available for non-research use if applicable. Please contact Abeomics
