

30-1259: Anti-alpha-Fetoprotein Monoclonal Antibody (Clone:AFP-11)

Clonality :	Monoclonal
Clone Name :	AFP-11
Application :	IHC
Reactivity :	Human
Gene :	AFP
Gene ID :	174
Uniprot ID :	P02771
Format :	Purified
Alternative Name :	AFP,HPAFP
Isotype :	Mouse IgG1
Immunogen Information :	purified alpha-Fetoprotein

Product Info

Amount :	0.1 mg
Purification :	Purified by precipitation and chromatography
Storage condition :	Store at 2-8°C. Do not freeze.

Application Note

Immunohistochemistry Recommended dilution:10 µg/ml
Positive tissue: hepatocellular carcinoma

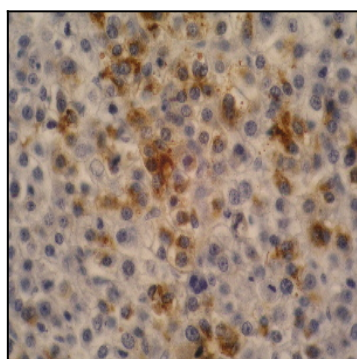

Figure 1: Immunohistochemistry staining of hepatocellular carcinoma (fetal liver; paraffin-embedded sections) with anti-human alpha-Fetoprotein (AFP-11).

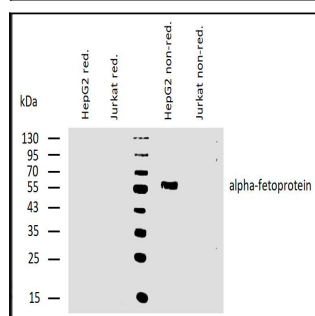

Figure 2: Western Blot analysis of alpha-fetoprotein(2 ug/mL) using mouse monoclonal AFP-11 on HepG2 and Jurkat cell lysate under reducing and non-reducing condition.
