## 30-1763: Anti-CD162 / PSGL-1 Monoclonal Antibody (Clone:TC2)-APC Conjugated

Clonality: Monoclonal

**Clone Name:** TC2 **Application: FACS** Reactivity: Human Conjugate: APC Gene: **SELPLG** Gene ID: 6404 **Uniprot ID:** Q14242 **Alternative Name: SELPLG** Isotype: Mouse IgG1

Immunogen Information: Human thymocytes

## **Description**

CD162 (P-selectin glycoprotein ligand-1, PSGL-1) is a sialomucin constitutively expressed as a disulfide-linked homodimer of two 120 kDa subunits on the surface of circulating leukocytes. CD162 serves as a ligand for P- E- and L-selectin, with the highest affinity for P-selectin. It is thus involved in leukocyte rolling at the endothelial surfaces, prerequisite for firm leukocyte adhesion and subsequent transendothelial migration. CD162 also mediates leukocyte-platelet adhesion and interleukocyte contacts. Whereas serving as an adhession molecule on mature leukocytes, CD162 is a potent negative regulator of human hematopoietic progenitors.

## **Product Info**

Amount: 100 tests

**Storage condition :** Store in the dark at 2-8°C. Do not freeze. Avoid prolonged exposure to light.
