## 30-1453: Anti-CD163 Monoclonal Antibody (Clone:GHI/61)

Clonality: Monoclonal
Clone Name: GHI/61
Application: FACS
Reactivity: Human

**Conjugate :** Unconjugated

Gene : CD163
Gene ID : 9332
Uniprot ID : Q86VB7
Format : Purified
Alternative Name : CD163,M130
Isotype : Mouse IgG1

Immunogen Information: Hairy cell leukemia cells

## **Description**

CD163, also known as M130, is a member of the scavenger receptor family, accounting for the clearance of hemoglobin-haptoglobin complexes during limited hemolysis, which protects the body, in particular the kidneys, against heme-mediated oxidative damages. It does not have measurable affinity for noncomplexed hemoglobin or haptoglobin. Immunomodulatory role of CD163 has been postulated. CD163 is expressed by cells of the monocyte-macrophage lineage and its extracellular part also circulates in plasma as a soluble protein, especially during sepsis and other conditions affecting macrophage activity, when its level may raise manyfold.

## **Product Info**

Amount: 0.1 mg

**Purification :** Purified by protein-A affinity chromatography

Content: 1mg/ml, Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide

**Storage condition :** Store at 2-8°C. Do not freeze.

## **Application Note**

Flow cytometry: Recommended dilution: 1-4 µg/ml.
