## 30-1817: Anti-CD200 Monoclonal Antibody (Clone:OX-104)-APC Conjugated

Clonality :	Monoclonal
Clone Name :	OX-104
Application :	FACS, IHC, IHC-Fr, Functional Assay
Reactivity :	Human
Conjugate :	APC
Gene :	CD200
Gene ID :	4345
Uniprot ID :	P41217
Alternative Name :	OX-2 membrane glycoprotein, MOX1, MOX2
Isotype :	Mouse IgG1
Immunogen Information	: Human CD200

## Description

CD200 (also known as OX2 or MRC) is a type-1 membrane glycoprotein, which contains two extracellular immunoglobulin domains, transmembrane domain and cytoplasmic domain. It is expressed by neuronal cells, B and T cell subsets, follicular dendritic cells, keratinocytes, and ovarian cells. The interaction between CD200 and its receptor CD200R results in macrophage activation (IL-6 production), inhibition of mast cell degranulation along with reduced TNF-alpha and IL-13 secretion and overall attenuation of the activation status of lymphocytes. It seems CD200 is also involved in maternal tolerance and its decreased expression in hair follicle correlates with follicular miniaturization.

## **Product Info**

Amount :100 testsStorage condition :Store in the dark at 2-8°C. Do not freeze. Avoid prolonged exposure to light.
