

## 30-1903: Anti-CD271 / NGFR Monoclonal Antibody (Clone:NGFR5)-Biotin Conjugated

<b>Clonality :</b>	Monoclonal
<b>Clone Name :</b>	NGFR5
<b>Application :</b>	FACS, IP, WB, IHC, ICC
<b>Reactivity :</b>	Human, Non-Human Primates, Feline, Rabbit, Ferret
<b>Conjugate :</b>	Biotin
<b>Gene :</b>	NGFR
<b>Gene ID :</b>	4804
<b>Uniprot ID :</b>	P08138
<b>Alternative Name :</b>	NGFR,TNFRSF16
<b>Isotype :</b>	Mouse IgG1
<b>Immunogen Information :</b>	Purified CD271 protein isolated from human melanoma cell line A875

### Description

CD271 / NGFR, also known as p75NGFR or p75NTR, is a 75 kDa low affinity receptor for the NGF (nerve growth factor), BDNF (brain-derived growth factor), and other neurotrophins, such as NT3 and NT4/5. Unlike other members of the tumor necrosis factor receptor superfamily of transmembrane proteins, CD271 has unique intracellular domain structure (lacks catalytic activity) and downstream signaling partners. Triggered by its ligands CD271 affects growth, differentiation, migration and death of the nervous system cells.

### Product Info

<b>Amount :</b>	0.1 mg
<b>Storage condition :</b>	Store at 2-8°C. Do not freeze.
