30-2109: Anti-CD56 / NCAM Monoclonal Antibody (Clone:LT56)-FITC Conjugated

Clonality: Monoclonal

Clone Name: LT56 Application: **FACS** Reactivity: Human Conjugate: FITC Gene: NCAM1 Gene ID: 4684 **Uniprot ID:** P13591 **Alternative Name:** NCAM1,NCAM Isotype: Mouse IgG2a

Immunogen Information: Cell line KG1a

Description

CD56 (NCAM, neural cell adhesion molecule) is a transmembrane glycoprotein of immunoglobulin family serving as adhesive molecule which is ubiquitously expressed in nervous system, usually as 120 kDa, 140 kDa or 180 kDa isoform, and it is also found on T cells and NK cells. Polysialic modification results in reduction of CD56-mediated cell adhesion and is involved in cell migration, axonal growth, pathfinding and synaptic plasticity. CD56 is a widely used neuroendocrine marker with a high sensitivity for neuroendocrine tumours and ovarian granulosa cell tumours.

Product Info

Amount: 100 tests

Storage condition : Store in the dark at 2-8°C. Do not freeze. Avoid prolonged exposure to light.
