30-1238: Anti-CD95 / Fas Monoclonal Antibody (Clone:LT95)

Clonality: Monoclonal

Clone Name: LT95
Application: FACS, IHC
Reactivity: Human
Gene: FAS
Gene ID: 355
Uniprot ID: P25445
Format: Purified

Alternative Name:

Tumor necrosis factor receptor superfamily member 6, Apo-1 antigen, Apoptosis-mediating

surface antigen FAS

Isotype: Mouse IgG1

Immunogen Information: HUT-78 human T cell lymphoma cell line

Description

CD95 (Fas, APO-1), a 46 kDa transmembrane glycoprotein, is a cell death receptor of the TNFR superfamily. Stimulation of CD95 results in aggregation of its intracellular death domains, formation of the death-inducing signaling complex (DISC) and activation of caspases. In type I cells caspase 3 is activated by high amounts of caspase 8 generated at the DISC, in type II cells low concentration of caspase 8 activates pathway leading to the release of cytochrome c from mitochondria and activation of caspase 3 by cytochom c. Besides its roles in induction of apoptosis, Fas also triggers pro-inflammatory cytokine responses.

Product Info

Amount: 0.1 mg

Purification : Purified by protein-A affinity chromatography

Storage condition : Store at 2-8°C. Do not freeze.

Application Note

Flow Cytometry excellent Immunohistochemistry Positive tissue:tonsil
