## 30-1448: Anti-GRAP2/GADS Monoclonal Antibody (Clone:UW40)

Clone Name: UW40
Application: FACS, IP, WB
Reactivity: Human
Gene: GRAP2
Gene ID: 9402

Uniprot ID: 075791
Format: Purified

**Alternative Name :** GRAP2,GADS,GRB2L,GRID

**Isotype:** Mouse IgG2a

Immunogen Information: GST-fusion human GRAP2/GADS protein

## **Description**

GRAP2/GADS (Grb2-related adaptor protein 2 / Grb2-related adaptor downstream of Shc) is a cytoplasmic adaptor protein containing N- and C-terminal SH3 domains flanking a central SH2 domain and a proline/glutamine-rich region. It is expressed predominantly in lymphoid tissue and hematopoietic cells, particularly in T cells. GRAP2/GADS plays a pivotal role during the early events of T cell signal transduction by recruiting the adaptor protein SLP-76 and its associated molecules, such as Vav, Nck, Itk, and ADAP, to the transmembrane adaptor protein LAT. GRAP2/GADS also binds several other signaling proteins, namely Gab2, HPK1 (hematopoietic progenitor kinase 1), and Cbl. Unlike similar adaptor protein Grb2, GRAP2/GADS shows higher selectivity when binding to the particular phosphorylated tyrosines of LAT adaptor.

## **Product Info**

Amount: 0.1 mg

**Purification:** Purified by protein-A affinity chromatography

**Storage condition :** Store at 2-8°C. Do not freeze.

## **Application Note**

Flow Cytometry Recommended dilution:1 Ã□Âμg/ml Immunoprecipitation Western Blotting
