30-1490: Anti-TNF-alpha Monoclonal Antibody (Clone:MAb11)

Clonality: Monoclonal
Clone Name: MAb11

Application : FACS, IHC-Fr, ICC, ELISA, Functional Assay

Reactivity: Human, Non-Human Primates, Pig

Gene: TNF
Gene ID: 7124
Uniprot ID: P01375
Format: Purified

Alternative Name: Tumor necrosis factor, Cachectin, Tumor necrosis factor ligand superfamily member 2

Isotype: Mouse IgG1

Immunogen Information: Recombinant human TNF-alpha

Description

TNF-alpha is a cytokine produced by monocytes, macrophages, neutrophils, NK cells, CD4+ T cells and many transformed cells. It can be expressed as a 17 kDa free molecule, or as a 26 kDa membrane protein. TNF-alpha easily forms stable trimers, but also other multimeric complexes. In the immune system, it is an important regulator, which has cytolytic and cytostatic activity against a range of tumor cells, increases fibroblast proliferation and supports neutrophil chemotaxis and phagocytosis.

Product Info

Amount: 0.1 mg

Purification: Purified by protein-A affinity chromatography

Storage condition : Store at 2-8°C. Do not freeze.

Application Note

Flow Cytometry Application note:intracellular staining

Immunohistochemistry (frozen sections) Application note:paraformaldehyde-fixed, saponin-treated frozen tissue sections

Immunocytochemistry ELISA Biotinylated MAb11 can be used as a detection antibody in combination with capture antibody MAb1 **Functional Application** neutralization
