

44-1179: Anti-SOX-2 Monoclonal Antibody (Clone:IHC665)(Discontinued)

Clonality :	Monoclonal
Clone Name :	IHC665
Application :	IHC
Reactivity :	Human
Gene :	SOX2
Gene ID :	6657
Uniprot ID :	P48431
Format :	Purified
Alternative Name :	Transcription factor SOX-2, SOX2

Description

SOX 2, also known as SRY (sex determining region Y)-box 2, is a transcription factor that acts to regulate pluripotency of undifferentiated embryonic stem cells, and to regulate gene expression in the stomach. This diagnostic grade SOX 2 IVD antibody is used to detect melanoma, testicular germ cell tumor, cervical carcinoma, lung cancer, breast cancer with basal cell phenotype, and teratoma of the central nervous system. SOX 2 has been reported as a predictor of poor outcome in stage I lung adenocarcinomas. Anti-SOX 2 is also used to recognize squamous cell carcinomas of the lung and gastrointestinal tract, and may be useful for detecting embryonal carcinoma.

Product Info

Amount :	0.1 ml / 1 ml
Purification :	Protein A/G Chromatography
Storage condition :	Store at 2°C - 8°C.

Application Note

Recommended dilutions: Immunohistochemical analysis: 1:100 - 1:200. However, this need to be optimized based on the research applications.
