

## 37-1160: Mouse PD-L1 / B7-H1 / CD274 Recombinant Protein (His Tag)(Discontinued)

**Reactivity :** Mouse

**Alternative Name :** A530045L16Rik Protein, Mouse; B7h1 Protein, Mouse; Pcdcl1l Protein, Mouse; Pcdcl1g1 Protein, Mouse; Pdl1 Protein, Mouse

### Description

#### Source : HEK293 Cells

Programmed death-1 ligand-1 (PD-L1, CD274, B7-H1) has been identified as the ligand for the immunoinhibitory receptor programmed death-1(PD1/PDCD1) and has been demonstrated to play a role in the regulation of immune responses and peripheral tolerance. PD-L1/B7-H1 is a member of the growing B7 family of immune molecules and this protein contains one V-like and one C-like Ig domain within the extracellular domain, and together with PD-L2, are two ligands for PD1 which belongs to the CD28/CTLA4 family expressed on activated lymphoid cells. By binding to PD1 on activated T-cells and B-cells, PD-L1 may inhibit ongoing T-cell responses by inducing apoptosis and arresting cell-cycle progression. Accordingly, it leads to growth of immunogenic tumor growth by increasing apoptosis of antigen specific T cells and may contribute to immune evasion by cancers. PD-L1 thus is regarded as promising therapeutic target for human autoimmune disease and malignant cancers. ### Product Info

**Amount :** H1 / CD274 Recombinant Protein (His Tag)(Discontinued) / 200 µg

**Purification :** > 98 % as determined by SDS-PAGE

**Content :** Formulation Lyophilized from sterile PBS, pH 7.4  
Normally 5 % - 8 % trehalose, mannitol and 0.01% Tween80 are added as protectants before lyophilization.

**Storage condition :** Store it under sterile conditions at -20°C to -80°C. It is recommended that the protein be aliquoted for optimal storage. Avoid repeated freeze-thaw cycles.

**Amino Acid :** Met1-Thr238

### Application Note

Measured by its binding ability in a functional ELISA . Immobilized recombinant mouse PD1-L1 at 1 µg/ml (100 µL/well) can bind mouse PD1 with a linear range of 6.25-400 g/ml .  
Endotoxin :< 1.0 EU per µg of the protein as determined by the LAL method
