

## 37-1191: Mouse Fas Ligand / FASLG / CD95L Recombinant Protein (His Tag)(Discontinued)

**Reactivity :** Mouse

**Alternative Name :** Apt1g1 Protein, Mouse; CD178 Protein, Mouse; CD95-L Protein, Mouse; Cd95l Protein, Mouse; Fas-L Protein, Mouse; Fasl Protein, Mouse; Faslg Protein, Mouse; gld Protein, Mouse; Tnfsf6 Protein, Mouse

### Description

#### Source : Yeast

Fas Ligand, also known as FASLG and CD95L, is the ligand for FAS. It is a transmembrane protein which binds to TNFRSF6/FAS. Interaction of FAS with fas Ligand is critical in triggering apoptosis of some types of cells such as lymphocytes. Fas Ligand may be involved in cytotoxic T-cell mediated apoptosis and in T-cell development. TNFRSF6/FAS-mediated apoptosis may have a role in the induction of peripheral tolerance, in the antigen-stimulated suicide of mature T-cells, or both.

### Product Info

**Amount :** Mouse Fas Ligand / FASLG / CD95L Recombinant Protein (His Tag)(Discontinued) / 200 µg

**Purification :** > 90 % as determined by SDS-PAGE.

**Content :** Formulation Lyophilized from sterile PBS, pH 7.4  
Normally 5 % - 8 % trehalose, mannitol and 0.01% Tween80 are added as protectants before lyophilization.

**Storage condition :** Store it under sterile conditions at -20°C to -80°C. It is recommended that the protein be aliquoted for optimal storage. Avoid repeated freeze-thaw cycles.

**Amino Acid :** Pro132-Leu279

### Application Note

Other pack size also available
