12-4218: Phospho-PTEN (Ser380) (Clone: NA9) rabbit mAb FITC conjugate

Clonality: Monoclonal
Clone Name: PTENS380-NA9

Application: FACS

Reactivity: Human, Mouse

Conjugate : FITC

Format : Conjugated

Phosphatidylinositol 3,4,5-trisphosphate 3-phosphatase and dual-specificity protein

Alternative Name: phosphatase, Mutated in multiple advanced cancers 1, MMAC1, Phosphatase and tensin

homolog, TEP1

Isotype: Rabbit IgG1k

Immunogen Information: A synthetic phospho peptide corresponding to residues surrounding Ser380 of human

phospho PTEN

Description

PTEN has been identified as a tumor suppressor gene and has been found to be mutated in a significant number of human cancers, including prostate, brain, and breast cancer. PTEN shares sequence homology with the protein-tyrosine phosphatase (PTPase) family of proteins and negatively regulates the PI3K/Akt pathway. PTEN de-phosphorylates target proteins, and recombinant PTEN has been shown to have phosphoinositide 3-phosphhatase and inositol phosphate 3-phosphatase activity. Studies of primary tumor cells show a loss of PTEN expression after metastasis to the brain, via astrocyte-derived microRNAs. A cluster of phosphorylation sites (S380, T382, T383, and S385) in the C-terminal tail of PTEN drive a conformational change that reduces PTEN activity by inhibiting membrane interactions.

Product Info

Amount: 10 Tests / 100 Tests

Content: 1X PBS, 0.09% NaN3, 0.2% BSA

Storage condition : Store at 2-8°C. Avoid repeated freeze and thaw cycles.

Application Note

For flow cytometric staining, the suggested use of this reagent is 5 $\tilde{A} \square \hat{A} \mu L$ per million cells or 5 $\tilde{A} \square \hat{A} \mu L$ per 100 $\tilde{A} \square \hat{A} \mu L$ of staining volume. It is recommended that the reagent be titrated for optimal performance for each application.

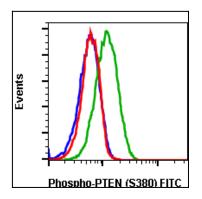

Fig-1: Flow cytometric analysis of A431 cells, untreated and unstained as negative control (blue) or untreated and stained (green) or treated with lambda phosphatase and stained (red) using Phospho-PTEN (S380) antibody, PTENS380-NA9 FITC conjugate.
