32-9117: Biotinylated Recombinant Human Alpha-1-acid glycoprotein 1/AGP1 (C-His)

Alternative Name: AGP 1; Orosomucoid-1; OMD 1; ORM1; AGP1

Description

Source: Human 293 Cells;

Alpha-1-Acid Glycoprotein 1 (AGP1) is an acute-phase protein secreted by the liver and is a member of the calycin superfamily. The expression of AGP1 increases 5 to 50-fold fold upon inflammation, which is regulated by glucocorticoids, interleukin-1 and interleukin-6. AGP1 binds various ligands in the interior of its beta-barrel domain. It also binds synthetic drugs and influences their distribution and availability in the body.

Product Info

Amount: $250 \mu g / 25 \mu g$

Content: Lyophilized from a 0.2 um filtered solution of PBS, pH7.2

Amino Acid: Biotinylated Recombinant Human Alpha-1-acid glycoprotein 1 is produced by Human 293 Cells.

The target gene encoding Q19-S201 is expressed with a 8His tag at the C-terminus.
