32-6499: NNT1 Human

Application: Functional Assay

Cardiotrophin-Like Cytokine Factor 1, Novel Neurotrophin-1, BSF3, CLC, CRLF1 Associated Cytokine-

Alternative Name: Like Factor 1, B-Cell Stimulating Factor 3, B-Cell-Stimulating Factor 3, BSF-3, NNT-1, NNT1,

Neurotrophin-1/B-Cell Stimulating Factor-3, Cold-Induced Sweating Syndrome 2, B-Cell Stimulatory

Factor 3, CISS2, NR6, CLCF1.

Description

Source: Escherichia Coli.

Sterile Filtered White lyophilized (freeze-dried) powder.

Cardiotrophin-like cytokine (CLC/ NNT-1) belongs to the IL-6 family of cytokines. All family members share the receptor subunit gp130, which belongs to the type I cytokine receptor superfamily. NNT1 is a trophic factor for motor neurons, a stimulator of ACTH release from corticotrophs, and an inducer of IgE synthesis and B cell proliferation. Cells expressing NNT-1 include embryonic muscle, lung epithelium, and mesenchyme. NNT1 binds to and activates the ILST/gp130 receptor. Neurotrophin-1 Human Recombinant (28-225) produced in E.Coli is a single, non-glycosylated, polypeptide chain containing 199 amino acids and having a molecular mass of 22kDa.The NNT-1 is purified by proprietary chromatographic techniques.

Product Info

Amount: $2 \mu g / 10 \mu g$

Purification : Greater than 95.0% as determined by SDS-PAGE.

NNT-1 protein was lyophilized from a 0.2 µm filtered solution in Acetonitrile and TFA.

Content: It is recommended to reconstitute the lyophilized NNT1 in sterile 18M-cm H2O not less than

0.5mg/ml, which can then be further diluted to other aqueous solutions.

Lyophilized Neurotrophin-1 although stable at room temperature for 3 weeks, should be stored desiccated below -18°C. Upon reconstitution NNT1 should be stored at 4°C between 2-7 days

Storage condition:

and for future use below -18°C. For long term storage it is recommended to add a carrier

protein (0.1% HSA or BSA). Please prevent freeze-thaw cycles.

Application Note

The ED50, as measured in a cell proliferation assay using human TF 1 cells transfected with human CNTF R , is less than 15ng/ml.
