12-9003-B: Biotinylated Anti-BCMA antibody(DM4), Rabbit mAb

Clonality :	Monoclonal
Clone Name :	DM4
Application :	ELISA, FACS
Reactivity :	Human
Format :	Powder
Alternative Name :	TNFRSF17, CD269, BCM, BCMA,

Description

The protein encoded by this gene is a member of the TNF-receptor superfamily. This receptor is preferentially expressed in mature B lymphocytes, and may be important for B cell development and autoimmune response. This receptor has been shown to specifically bind to the tumor necrosis factor (ligand) superfamily, member 13b (TNFSF13B/TALL-1/BAFF), and to lead to NF-kappaB and MAPK8/JNK activation. This receptor also binds to various TRAF family members, and thus may transduce signals for cell survival and proliferation. [provided by RefSeq, Jul 2008]

Product Info

Amount :	100 µg
Purification :	Purified from cell culture supernatant by affinity chromatography
Content :	Not Sterile
Storage condition :	Store at 2 °C-8 °C for 6 months

Application Note

FACSÃ Â 1/100; IP 1/30

For Research Use Only. Not for use in diagnostic/therapeutics procedures.
