

## 12-9016-B: Biotinylated Anti-BCMA antibody(DM16), Rabbit mAb(Discontinued)

**Clonality :** Monoclonal  
**Clone Name :** DM16  
**Application :** ELISA  
**Reactivity :** Human  
**Alternative Name :** TNFRSF17, CD269, BCM, BCMA,

### Description

The protein encoded by this gene is a member of the TNF-receptor superfamily. This receptor is preferentially expressed in mature B lymphocytes, and may be important for B cell development and autoimmune response. This receptor has been shown to specifically bind to the tumor necrosis factor (ligand) superfamily, member 13b (TNFSF13B/TALL-1/BAFF), and to lead to NF-kappaB and MAPK8/JNK activation. This receptor also binds to various TRAF family members, and thus may transduce signals for cell survival and proliferation. [provided by RefSeq, Jul 2008]

### Product Info

**Amount :** 100 µg  
**Purification :** Purified from cell culture supernatant by affinity chromatography  
**Content :** Not Sterile  
**Storage condition :** Store at 2 °C-8 °C for 6 months

### Application Note

FACS 1/100; IP 1/30
