12-9016-B: Biotinylated Anti-BCMA antibody(DM16), Rabbit mAb(Discontinued)

Clonality: Monoclonal
Clone Name: DM16
Application: ELISA
Reactivity: Human

Alternative Name: TNFRSF17, CD269, BCM, BCMA,

Description

The protein encoded by this gene is a member of the TNF-receptor superfamily. This receptor is preferentially expressed in mature B lymphocytes, and may be important for B cell development and autoimmune response. This receptor has been shown to specifically bind to the tumor necrosis factor (ligand) superfamily, member 13b (TNFSF13B/TALL-1/BAFF), and to lead to NF-kappaB and MAPK8/JNK activation. This receptor also binds to various TRAF family members, and thus may transduce signals for cell survival and proliferation. [provided by RefSeq, Jul 2008]

Product Info

Amount: 100 μg

Purification: Purified from cell culture supernatant by affinity chromatography

Content: Not Sterile

Storage condition: Store at 2 °C-8 °C for 6 months

Application Note

FACS 1/100; IP 1/30
