

30-2932AC: Streptavidin APC Conjugated

Application : FACS

Conjugate : APC

Description

Streptavidin APC is intended for detecting biotinylated antigens and biotinylated antibodies by FLOW cytometry.

Product Info

Amount : 100 ug

Purification : Purified recombinant protein is conjugated with allophycocyanin (APC) under optimum conditions. Unconjugated protein and free fluorochrome are removed by size-exclusion chromatography.

Content : Streptavidin APC - 1 vial (0.5 ml) of Ready-to-use solution. No reconstitution is necessary. Reagent is provided in stabilizing phosphate buffered saline (PBS) solution containing 15mM sodium azide.

Storage condition : Store at 2-8°C. Protect from prolonged exposure to light. Do not freeze.

Application Note

Flow cytometry: Recommended use: 1 µg/ml. Extracellular and intracellular staining.
