

12-8156: Anti-Haloperidol Antibody (17001)

Clonality :	Monoclonal
Clone Name :	HAL101
Application :	ELISA
Alternative Name :	Haldol Decanoate
Isotype :	Mouse IgG1
Immunogen Information :	Haloperidol conjugated through the tertiary alcohol at the 4' position of the piperidine ring with a succinic acid linkage to keyhole limpet hemocyanin (KLH).

Description

Specificity: Mouse Monoclonal Antibody specific to Haloperidol.

Product Info

Amount :	500µg
Purification :	Preparation: Purified by Protein G affinity chromatography
Content :	Concentration: Lot Specific Formulation: PBS, pH 7.4.
Storage condition :	These antibodies are stable for at least one (1) year at -20°C to -70°C. Store product in appropriate aliquots to avoid multiple freeze-thaw cycles.

Application Note

This antibody may be used in immunoassays for detection of haloperidol. Other applications are under investigation.
